

Diggalign

The new Diggalign kit is designed to be used by screw piling, core barrelling and contractors or any application where drilling accuracy is a must. Designed to show when the top of the pylon is off plumb it helps to maintain accuracy throughout the installation. It can also be used with a trencher to control the depth of the trench ensuring accuracy.

Features:

- 2 options available
- Standard Definition with increments in 2°, recommended for pilings under 4m
- High Definition with increments in .5°, for pilings above 4m
- Can be retrofitted to existing drives.
- Suits all machines with variable harness lengths
- Ensures accuracy when boring
- Increase job site efficiency
- Can be calibrated for any angle
- Highlights misalignment fore and aft
- Dual supply capable with both 12V and 24V

Ideal Use:

Screw piling, core barrelling, foundation drilling, under road drilling, trenching

Drive Suitability:

Suits all drives

Specifications:	
Length	120mm
Height (overall)	35mm
Width (overall)	93mm
Length (overall)	146mm
