

Digga Service in Full Swing

Digga, Australia's largest manufacturer and exporter of machinery attachments, gearboxes and mini loaders are proud to introduce Digga Service.

Digga service is the amalgamation of the two service divisions of Digga Attachments & Kanga loaders.

The new service division with in house and onsite service vans and trucks is now fully operational with service outlets in QLD, NSW & VIC and Authorised Service Agents in all states. Digga Service is the exclusive supplier and distributor of repairs, maintenance and spare parts for Digga attachments & Kanga Loader products in Australia. With all products manufactured locally, Digga Service can guarantee quality, reliability and the supply of parts throughout Australia.

"The merging of the 2 divisions has allowed us to create a much larger support network, bringing more benefits to our customers including less downtime, increased productivity and competitive pricing" said Suzie Wright, Managing Director of Digga Australia. "Our qualified, professionally trained service technicians provide full service programs for mini loaders and attachments" she continued.

Digga Service offers a complete line of quality service support and maintenance plans to ensure the proper care of your equipment as well as fixed maintenance costs, manufacturer guarantee and full mechanical service history ensuring maximum equipment up-time and resale value. The Digga Group manufactures and exports, Kanga Mini Loaders, gearboxes and over 30 ranges of machinery attachments such as auger drives, trenchers, augers, brooms and wear parts for the earthmoving machinery Industry. Digga is 100% privately Australian owned and employs over 200 people nationally.

Recently awarded "Gold Coast Business of the Year" the "Australian International Design Award" and the "British Export Excellence Award" in 2009, Digga Australia continues to meet the highest standards in the industry.
